

m_indmed::f_char_indmed

```
graph LR; A[m_indmed::f_char_indmed] --> B[m_indmed::f_char_med]
```

A diagram showing a mapping from a source variable to a target variable. The source variable, 'm_indmed::f_char_indmed', is enclosed in a gray rectangular box on the left. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The target variable, 'm_indmed::f_char_med', is enclosed in this white box. Both boxes have a thin black border.
